MINUTES OF PROCEEDINGS 1958–1960 i

OBITUARIES xiii

HAEMATOCOCCUS IN SOUTHERN AFRICA. By M. A. POCOCK. (With six text-figures and Plates I and II.) 5

AN ARCHAEOCYATHID FROM THE NAMA SYSTEM. By S. H. HAUGHTON. (With Plates III–V.) 57

PRESIDENTIAL ADDRESS: THE DEVELOPMENT OF SCIENTIFIC POLICY IN SOUTH AFRICA. By S. M. NAUDÉ, President, Council for Scientific and Industrial Research 61

THE WATER AND HEAT RELATIONSHIPS OF FIDDLER CRABS (*Uca* spp.). By E. B. EDNEY, Department of Zoology, University College of Rhodesia and Nyasaland. (Communicated by J. H. Day.) (With seven text-figures.) 71

ANIONIC OXYGEN THE BUFFER BASE OF THE MITOCHONDRIA. By H. ZWARENSTEIN and A. J. DAVISON, Department of Physiology and Pharmacology, University of Cape Town 93

THE LENGTH AND INCLINATION OF THE PRIMATE CERVICAL SPINOUS PROCESSES. By M. J. TOERIEN, Anthropological Institute, University of Zürich . 95

GEOMAGNETIC OBSERVATIONS ON MARION ISLAND, GOUGH ISLAND AND TRISTAN DA CUNHA. By B. L. WIID, Geological Survey, Pretoria, and A. M. VAN WIJK, Magnetic Observatory, Hermanus. (With four text-figures and Plate VI.) 107

GRAVITY OBSERVATIONS AT MARION ISLAND, TRISTAN DA CUNHA AND GOUGH ISLAND. By B. L. WIID, Geological Survey, Pretoria. (Communicated by L. E. Kent.) (With six text-figures.) 119

TINGIDAE FROM SOUTH AFRICA (HEMIPTERA). By CARL J. DRAKE, Smithsonian Institution, Washington, D.C. (Communicated by A. J. Hesse.) (With Plates VII–X.) 129

TWO NEW SPECIES OF SALDIDAE FROM SOUTH AFRICA (HEMIPTERA: SALDIDAE). By CARL J. DRAKE, Smithsonian Institution, Washington, D.C. (Communicated by A. J. Hesse.) (With Plates XI–XII.) 133

THE WATER ECONOMY OF THREE SPECIES OF THE AMPHIBIOUS CRAB, *Potamon*. By J. W. T. DANDY and D. W. EWER, from the Department of Zoology, University of Natal, Pietermaritzburg. (With nine text-figures.) . . 137

REGULARITIES INVOLVING $^{3}_{2}$He AND $^{4}_{2}$He AND THEIR POSSIBLE IMPLICATIONS FOR NUCLEAR STRUCTURE. By L. H. AHRENS, Department of Geochemistry, University of Cape Town. (With eight text-figures.) 163

PAGE

REVISED LIST OF SOUTH AFRICAN LATE TERTIARY AND PLEISTOCENE MARINE MOLLUSCA. By K. H. BARNARD, South African Museum . . . 179

A NEW SOUTH AFRICAN SOLIFUGE (ARACHNIDA), WITH NOTES ON SOME KNOWN SPECIES. By R. F. LAWRENCE, Natal Museum, Pietermaritzburg. (With two text-figures.) 197

THE GEOLOGY AND DESCRIPTION OF A FOSSILIFEROUS DEPOSIT NEAR ZWARTKLIP IN FALSE BAY. By RONALD SINGER, Department of Anatomy, University of Cape Town, and A. O. FULLER, Department of Geology, University of Cape Town. (With one text-figure and Plates XIII–XV.) . . . 205

HYDROBIOLOGICAL STUDIES ON ALKALINE AND ACID STILL WATERS IN THE WESTERN CAPE PROVINCE. By A. D. HARRISON, National Institute for Water Research, South African Council for Scientific and Industrial Research. (With nine text-figures.) 213

SOUTH AFRICAN CEPHALOPODS. By GILBERT L. VOSS, The Marine Laboratory, University of Miami. (Communicated by J. H. Day.) (With three text-figures and Plate XVI.) 245

SECOND LIST OF PYCNOGONIDA OF THE UNIVERSITY OF CAPE TOWN ECOLOGICAL SURVEY. By J. H. STOCK, Zoological Museum, Amsterdam. (Communicated by J. H. Day.) (With six text-figures.) 273

THE BENTHIC ECOLOGY OF FALSE BAY. PART II: SOFT AND ROCKY BOTTOMS OBSERVED BY DIVING AND SAMPLED BY DREDGING, AND THE RECOGNITION OF GROUNDS. By J. F. C. MORGANS. (With five text-figures.) . . . 287
